Galena & Minnesota Packet Co.

ARRANGEMENT FOR

1854.

THE GALENA & MINNESOTA PACKET COMPANY will run a daily line of Boats during the ensuing season, between Galena, Stillwater and St. Paul, stopping at all intermediate landings, leaving Galena at 12 M. daily, except Sundays.

The line will consist of the

NOMINEE,	Captain R. Blakely,
WAR EAGLE,	" D. S. Harris,
GALENA,	" D. S. Morehouse,
ROYAL ARCH,	" E. H. Gehm,

All first class boats, and commanded by experienced and accommodating officers.

These boats will connect, at Galena, with the St Louis & Galena daily Packet Steamers, which line connects at Rock Island with the Chicago & Rock Island Railroad.

This Company's Boats being U. S. Mail Steamers, their punctuality can be confidently relied upon.

Freight shipped at St. Louis, or between St. Louis and Galena, on the St. Louis & Galena line of Boats to points above Galena, will be re-shipped at Galena free of charge for drayage or forwarding, and without delay.

The Railroad between Galena & Chicago, connecting with the various Eastern Roads, is now completed within a few miles of Galena, and the unfinished portion of the Road stocked with comfortable Stage Coaches.

News of the Morning.

The mails and the Telegraph, last evening, brought us an avalanche of news, which will be found under the appropriate head. The intelligence by the *Arabia* is full of warlike items.—The storm, which was so violent here on Thursday, extended east and south, doing great damage and causing much loss of property and life.

MAY WARD, the murderer of Butler, has been *acquitted* by a Kentucky jury. Several serious marine disasters are reported at Chicago and elsewhere.

Milwaukee & Horicon Railroad.

Among the various railroads which are now being pushed forward with energy, having their eastern terminus in this city, or connecting intimately with others which have such terminus, the one whose corporate name heads this article has not received the notice which it deserves; the sole reason being that its operations have been carried on quietly and without parade, and that the theatre of those operations has been more in the country than the city. We are indebted to a leading member of the Company, perfectly well posted in all its affairs, for the information relative to this important road which we give our readers this morning.

The company was organized on the 20th of November last, by the election of directors, and since that time has been busily at work, with the following results:

The *first* division of the road—from Milwaukee to Horicon, 50 miles—is provided for by a contract for the use of the La Crosse Railroad, which it is expected, will be completed for that distance early enough in the ensuing fall to commence the carrying off of the summer's crops.

The *second* division of the road—from Horicon to Berlin—a distance of 42 miles, has been surveyed, and permanently located. This division of the road is to be put under contract on the 1st of May, and will be pushed forward rapidly to completion. The preliminary survey of the *third* division of the road, from Berlin to Stevens' Point on the Wisconsin River, a distance of 50 miles, has just been completed, and shows a very feasible route. The stock agents are now on the line, receiving subscriptions to the capital stock of the Company, and as soon as $200,000 of stock shall be taken on that division, it will be put under contract.

The present and prospective resources of the company seem to be amply sufficient to place the early construction of the second division of the road beyond every contingency. They consist of $320,000 of stock taken, of which $215,000 is half paid in; mortgages upon real estate, at one half its value, exclusive of improvements. The towns on the line of the road, and the county of Waushara, by an act of the last Legislature, are authorized to loan their credit to the company to the amount of $480,000. It is but reasonable to suppose that the vote to be taken, will be in favor of the loans, as it is clearly for their interest to do so, since such a vote will materially assist in the construction of a road which, when completed, will be of incalculable value to the country. The first mortgage bonds on the road, for the second division of forty two miles, will amount to $420,000, and it is estimated that one quarter of the stock will be taken for construction, say $105,000, which makes the resources as follows:

Stock now taken	$320,000
Towns and County Bonds	480,000
First Mortgage Bonds	420,000
Stock for Construction	105,000
Total	$1,325,000

The cost of constructing the second division is estimated at $10,000 per mile, which will make the 42 miles, when fully equipped, cost $504,000.

This would seem to leave margin enough to provide with certainty for the second division; and it must be taken into consideration that this division leads through and into one of the most beautiful and fertile, and consequently thriving, portions of the State. At Berlin, 92 miles from Milwaukee, the road reaches navigable waters of the Fox River. At Stevens' Point, 58 miles further north-west, it reaches the extensive Pinery, the trade of which is well worth securing, although, if the road ran through a wilderness to secure it.

Besides this, by the organization of the Berlin and Lake Superior R. R. Co. chartered in 1853, of which the direct ors are to be chosen on the 15th of May next, the enterprise of opening a railroad connection with the Lake Superior mining region by this route is attracting a great deal of attention.

The N. Y. *Tribune*, of March 23d, says;

"Our attention has been called again to this subject by the receipt of a chart of the route above indicated, made under the instructions and from data furnished by Algernon Merryweather, Esq., of the Gogebic Mine, a gentleman formerly connected with the land surveys of that region, and familiar with railroad engineering. Mr. Merryweather left the Forks of the Ontonagon the 15th December, accompanied only by Capt. Angus of the Clifton Mine, the rest of the party and the men hired to attend them not having courage to undertake the journey when the time of departure arrived.

With their provisions, blankets and necessaries upon their backs, these two gentlemen left the usual winter route on their way down, for the purpose of reconnoitering the proposed line of railroad. The first twelve miles from the Forks of the Ontonagon is a table land of no great elevation and eminently adapted to the construction of a railroad. The next eighteen miles crosses the Southern or Iron range. The route here would be necessarily crooked, but in other respects is favorable; the grades would be easy, and the road would open deposits of iron ore whose extent is as yet unknown. This brought them nearly to Lac Vieux Desert, upon the boundary between Wisconsin and Michigan.

From this point the travellers bore away toward Big Bull Falls, leaving the route of the proposed road a little to the east. For 60 miles south of Lac Vieux Desert to Pelican River, they traversed what are known at the West as white pine lands, a country slightly rolling, with a very rich soil, well watered with lakes and brooks, sustaining immense bodies of pine woods, and traversed by low ridges covered with maple. They then kept along the left bank of the Wisconsin for 25 miles to Prairie River, across a country rolling, rocky, with many granite boulders, and abounding in pine—a district known as the Pine Barrens.—From Prairie River, leaving the Wisconsin, which here makes a great bend, they crossed a moderately rolling and rich country, twenty miles, to Pine river; thence eighteen miles through Pine and maple lands brought them to Big Bull Falls, where a village has grown up of some 500 inhabitants, engaged in lumbering. They were twelve days on their way, the snow having increased from six inches at the time of starting to eighteen when they arrived at the Falls. As stated above, the latter part of their journey was a little to the west of the Shawno route. Their course they describe as perfectly feasible, and indeed favorable for a railroad.

Enough is here shown to make it probable at least that this route will prove to be the most feasible one for a railroad connection with Lake Superior, a connection which would pour untold wealth into the lap of our favored city. But, leaving out of consideration for the present both the extensions, to the Mississippi and to the Great Lake, the road between this city and Berlin passes through and into a country whose resources are unsurpassed, and which, while it reaps the benefits of cheap and rapid communication with the East will secure ample dividends to the Company.

We conclude this article by commending this road to the favor of our citizens, and wishing its enterprising Directors ample and speedy success in their great undertaking.

"*Thrip*," is the name proposed for the Three Cent piece "for short." The name is a good one, and promises to be generally adopted.—*Ozaukee Times.*

The Milwaukee papers are clamorous against Gov. Barstow, because he has gone to Washington. We confess that we cannot see how the fact of his being Governor renders it improper for him to visit Washington, or any other place he sees fit to visit; especially now when the Legislature is not in session.—*Mineral Point Democrrt.*

None of the Milwaukee papers have pretended that it was "improper" for the Governor "to visit Washington," or clamored against him for doing so. Their strictures relate altogether to the *objects* of this executive pilgrimage.

PUBLISHING THE LAWS.—We think that the Secretary of State will have to reverse his decision not to send copies of the general laws to any of the papers, since several desire to publish them. The Fond du Lac *Freeman* states that the three papers in Fond du Lac offered to do so. It may, however, be too late now for them to comply with the condition of issuing all the laws within two months.

BURGLARS ABOUT.—Every country exchange which we take up brings us accounts of burglaries committed; indeed that crime seems just now to be all the rage. At Mineral Point, as we learn from the *Democrat*, the store of J. Milton was broken into and a considerable quantity of goods stolen. The dwelling of a Mr. Hoard was also entered. The citizens turned out in search, and two young men were arrested and held to bail to answer to the charge.

Business Prospects of Ozaukee.

Our next neighbor north, Ozaukee, is preparing for an active business season and, according to the *Times*, with every prospect of realizing its most sanguine hopes. We condense from the last number of the *Times*, the following items:

An unusually large amount of Real Estate has changed hands, while its value has very materially advanced. The sales will be likely to continue at an increased ratio for considerable time yet, as this business is but just commenced.—These sales are not the result of a spirit of speculation, but are purely the result of the necessities of the increasing business of our town.

" " " " " "

In the line of building, from present appearances, double the amount of buildings will be built of any previous season and of a more elegant and substantial character. Six or eight large brick and stone blocks are in contemplation. Among them is to be a banking house, for the establishment of which we understand negotiations are now in progress.

" " " " " "

The Messrs. Kilgore, recently from the State of Maine, have established a large and flourishing business in the manufacture of clapboards and sugar shocks, for the Eastern market. The great quantity and excellent quality of the timber in this vicinity render this a favorable point for the manufacture of this article. These enterprising gentlemen are reaping the reward of their enterprise and energy.

We have two extensive Brick manufactories, from which it is intended this season to turn out two million brick, for the home consumption and foreign market. The brick manufactured here are the same color of the Milwaukee brick, but are reckoned to be of a somewhat better quality.

" " " " " "

All other branches of business exhibit the same activity and prosperity, and our town is really awakened to a new life and energy.

These facts show the absolute necessity for better communications with the interior, and more others are so easily acquired which will render equal service and bring the same substantial benefits, as Plank Roads, at the present time.

From all these promising premises the *Times* naturally concludes that Ozaukee needs an outlet by Rail Road southwardly, and hereupon discourses as follows:

This necessity is approaching absolute certainty as our business increases. In view of this our southern neighbors should look to it that they put themselves speedily in communication with their northern neighbors who are entering upon a new era of activity and prosperity in business. The means of communication has been decided upon and only awaits completion—the Lake Shore Railroad. We understand that it is in course of rapid construction from Chicago to Milwaukee.—When it is intended to push it north of Milwaukee is yet in the future; but the more speedily it is done the sooner will the benefits to accrue be realized. So hurry up the Road.

The New School Law.

We publish to-day, to the exclusion of our usual amount of reading matter, the amended School Law of the last session. The Legislature created for themselves 1000 copies in pamphlet form, with notes, forms, &c., which is being prepared by State Superintendent Wright, and will be ready in a few weeks.—*Madison Democrat.*

The law above referred to contains 100 sections, and is a complete revised code for the management of School District and School affairs in this State. As it is very long, and is to be distributed to all of the school officers of the state in pamphlet a sufficient time before going into effect for those officers to become acquainted with their duties under it, we shall not publish it in our columns. It takes effect on the 1st of July next.

LAND MONOPOLY.—The Waukesha *Chronotype* commenting upon the recent purchase of all the School Lands in this state subject to entry, by two individuals, as a matter of speculation, says:

Government sanctions this wholesale monopoly, and the corrupt tools of more corrupt corporations and aristocracies, in their capacity as legislators, have for years refused to put a check upon this damning and blighting curse.

The same paper which uttered this sentiment overflows with invective against the *Sentinel* for sharply censuring Gov. Barstow's rumored mission to Washington to lobby for Land Grabs; but has nothing to say itself in condemnation of the Governor for lending his name and influence to promote such "wholesale monopoly"! Such is the difference between precept and practice.

MADISON DAILY JOURNAL—ENLARGEMENT.—The proprietors of the Madison *Journal* announce their intention to enlarge their *Daily* very shortly to the size of the *Free Democrat* of this city, and to improve it in other respects. In its present dimensions, it is one of our most valuable exchanges, and we repeat our word of advice to our readers everywhere, that if they desire to obtain early and reliable information from the capital, they cannot do better than to send for the *Journal*; and our merchants will find ample returns from any investments in the way of advertisements therein.

☞ A correspondent of the *Morning News* erroneously attributes to Mr. E. G. RYAN the weak and silly apology for Gov. BARSTOW's unconstitutional appointments, which appeared in the *Wisconsin* of Wednesday afternoon. No doubt the mistake was caused by the *Wisconsin's* certificate that the author of this asinine production was an "able constitutional jurist;" since certainly no one would have suspected that fact from reading the article itself.

The late Legislature created several new State offices, to every one of which the Governor has appointed members of the Legislature who created theoffice, right in the face of Sec. 12 Art 4 of the Constitution, which declares that "No member of the Legislature shall during the term for which he was elected, be appointed or elected to any civil office in the State, which shall have been created or the emoluments of which shall have been increased, during the term for which he WAS elected."

We are desirous of putting the most charitable construction upon the acts of the Governor—but really which is the most charitable, a deliberate intent to violate the Constitution, or ignorance of its provisions.—*Ozaukee Times, (Dem.)*

Battle with the Indians.

INDEPENDENCE, April 24.

The Santa Fe mail arrived yesterday, bringing intelligence of a fight on the 5th of March, between a detachment of 26 men under command of Lieut. D. Ball, of the second dragoons, and a party of Jicarillas Apache Indians, number unknown. The loss of the United States troops was two killed and four wounded. The Indian loss nine killed and 21 wounded. The celebrated Apache Chief, Lobos, was among the killed.

On the 30th March another fight took place 12 miles from Loar, between a party of sixty dragoons, commanded by Lieut. J. W. Davidson, 1st Dragoons, and a party of nearly three hundred Jacarilla, Apache and Utah Indians. The soldiers suffered severely, losing 21 killed and 18 wounded. The Indian loss is unknown, but supposed to be very great. Another report gives the number of soldiers killed at 40. A strong force, under command of Col. Cook, are in pursuit of the Indians.

Milwaukee Female College Report.

The undersigned having been invited to attend as a Committee and examine the students of the Milwaukee Female College on the 10th, 11th, and 12th inst., would report:

That one or more of the members of the Committee was present at a majority of the exercises and they are pleased at being able to speak in general terms of high commendation, both of the faithfulness of the teachers, and of the diligence of the pupils. Classes in Reading, Arithmetic Grammar, Analysis, Ancient History, Modern History, History of the U. S., Physiology, Astronomy, Rhetoric, Algebra, Geometry, Trigonometry, Mental Philosophy, Evidences of Christianity, Latin, German and several other studies were examined.

The arrangement of the Exercises—Music and reading of Essays alternating with the regular Exercises—was such as to furnish variety, and break the monotony which prevails too much at Examinations, as usually conducted. The confidence which evidently exists between the pupils and the teachers, is a pleasant feature of the school. The classes in Arithmetic, in German, in Ancient History, in Modern History, and in Physiology, passed a good examination; as did also the classes in Analysis, and U. S. History.—The Latin classes passed a respectable examination.

The Committee would encourage them to aim at a yet more thorough acquaintance with the grammatical forms, which alone lay the foundation for a perfect knowledge of the language.—The class in the evidences gave proof not only of an acquaintance with text books, but of a knowledge of the subject.

The compositions and essays in most instances exhibited maturity of thought, and in several instances a vigorous and graceful style was employed to convey these thoughts. The dialogues and colloquies were in general very well spoken.

We noticed the praiseworthy efforts of the teachers to make the pupils raise their voices so as to be heard throughout the large recitation room. But it may be questioned whether so large a room is a favorable place to train young pupils to read naturally. When the voice is strained, as it must be in many instances there, the power to moderate the voice is lost. We commend the evident attention which has been given by the teachers to reading, and express the hope that even more attention will be given to this branch of a good education. Natural and graceful reading is, especially to a lady, an almost essential accomplishment.

In conclusion the Committee would offer one or two suggestions, which may not be deemed irrelevant to the object for which they were appointed.

In regard to classes in general history the Committee would suggest the propriety of expending the force of an examination on some particular period, whilst a few questions asked on the wide field would be a guarantee against any fact being slighted by the class.

An Examining Committee could do more justice to the professors and students of the College, were they appointed at an earlier period of the Session, and were the classes which they were expected to examine, mentioned to them some time in advance. This, the Trustees, who should unquestionably appoint the examiners, might do say three months in advance, and assign, for example, to one the classes in History, to another those in Mathematics, to another those in the Languages &c. Thus greater justice would be done to the teachers and to their pupils, while the examiners would be enabled to discharge their duties more faithfully.

The Committee are confident that the citizens of Milwaukee and of the State, do well in patronizing the Milwaukee Female College. By their fostering care and patronage, it may become all that the most enlightened friends of education can desire it to be.

Respectfully submitted.

The State University.

We have read with considerable attention and interest the Report of the Board of Regents of the University, for 1853. It presents clearly the present condition of the Institution, its immediate wants and its prospects for the future.

The fund derivable from the sales of the University lands will ultimately amount to $175,000. The total sales thus far amount to $106,000, the income of which at 7 per cent, with the fees of students, amounting to about $1000 per annum, and the proceeds of sales of lots from the University Addition, amounting to about $500 more, constitute the resources of the University. The sum total thus devoted to its support is $12,883.—000. Its total resources are as follows;

Lands sold and proceeds bearing interest	$95,244 85
Capital fund in treasury and ready for investment	10,857 22
Appraised val. of lands unsold, about	69,898 93
PROPERTY OWNED BY THE BOARD OF REGENTS, TO WIT:	
Grounds, fifty acres, worth at least	$35,000 00
Building, &c., cost, about	20,000 00
Library and Cabinet	3,000 00
Total resources	$223,000 00

This sum, after deducting the indebtedness, leaving $203,000, is the clear property of the Institution, and exceeds the original endowment by $23,000—which increase is attributable to the sound and able management of the board of regents.

The board take the following sensible view of the necessity of rendering the institution free:

"The State University should not only be free, but should be able by its ample means to offer the youth of the state a better education than can be expected from literary institutions dependent for their endowments on private liberality; and supported, to a considerable extent, on the fees of tuition. It has been, as it will continue to be, the care of the board, that the means placed at their disposal should be administered with a view to these valuable ends and should be made available to the eminent and permanent usefulness of the University."

The communication of the Chancellor is a clear history of the Institution, and contains a number of important recommendations.

John A. Lathrop, L. L. D., Chancellor, and Professor of Ethics, Civil Policy, and Political Economy.
John W. Sterling, A. M., Professor of Mathematics, Natural Philosophy and Astronomy.
O. M. Conover, Professor of Ancient Languages and Literature.
S. P. Lathrop, Professor of Chemistry and Natural History.
" " Professor of Mental Philosophy, Logic, Rhetoric and English Literature.
S. H. Carpenter A. B., Tutor.

Our space will not admit a more lengthy notice of the report at present. We shall have occasion to refer to the subject again.

Since the report was published the State has made a loan from the School Fund to the University, for the erection of another building, which will soon be commenced. The total charges of attendance have been reduced to $21 per annum, and the professorship of Chemistry, &c., has been filled.

The University deserves the patronage and encouragement of every citizen in the State. It is the head of our educational system, is under safe and enlightened management, and is, and may to a still greater degree be made, the means of solid and permanent good to the State.—*Madison Democrat.*

From the Wisconsin and Iowa Farmer.

Sheep Shearing Festival.

The Executive Committee of the Wisconsin State Agricultural Society, being aware of the uncertainty and doubt thrown around many questions in sheep economy, have determined to institute an annual sheep shearing festival, for the purpose of affording an opportunity for determining with certainty many of these questions.

The Festival for the present year will be held in the village of Whitewater on Wednesday, May 31st, under the direction of the Society, when the following premiums will be awarded:

CLASS A.

For the best ten ewes, two years old or over, that have been wintered and are owned in this State, that will shear the greatest value of wool of one year's growth, in proportion to the expenses of keeping, and irrespective of breeds, a premium of twenty five dollars will be awarded.
For second best do, $12 00
For third best, do, 6 00
For the best lot of lambs, the progeny of the 10 ewes, 6 00
For the second best, do do 4 00

The Committee of Judges in this class will consist of Reuben M. Norton, of Racine, Benjamin F. Pixley, of Janesville, and Horatio Hill, of the city of Milwaukee.

Each competitor will be required to shear his own sheep, or to provide a shearer for that purpose.

The shearing will commence at ten o'clock A. M.

CLASS B.

For the best buck two years old or over, $15,00
For second best do do do 10,00
For best buck under two years of age, 10,00
For second best do do 5 00
For best single ewe two years old or over, 6 00
For second best do do 3 00

The committee of judges in this class will be announced on the day of the Festival.

CLASS C.

For the best shearer, $6,00
For the second best do. 3,00

The committee of judges in this class will be announced on the day of the Festival.

Rules to be considered relative to the ten Ewes

The committee in estimating the expenses of keeping sheep, are to consider the annual cost of keeping sheep at one dollar per hundred pounds and the standard weight of ewes at eighty pounds each. Should any lot of ewes average less than the standard the committee will estimate the expense of keeping as though they weighed full weight.

The sheep are to be weighed by the committee in the morning before the shearing, and the sheep are to be shorn in the presence of the committee.

After the wool is properly done up, and before weighing the committee will fix the relative value of wool per pound on each sheep.

The committee will be very particular in reference to the condition of the wool. Should any wool, from unavoidable causes, or from careless washing, or from the use of any foreign substance, be found to be in a bad condition, the committee will make the necessary deduction before weighing.

No sheep will be allowed to compete unless they have been well washed within two weeks previous to the time of shearing.

For the best single Ewes.

The committee will take into consideration size, build and constitution, quality, quantity and length of staple, and what will pay the greatest profit to the farmers of Wisconsin.

For the best Buck.

The committee will consider size, build and constitution, and the general appearance of the animal, and the quantity, quality and value of the wool, and what will pay the greatest profit to the farmers of Wisconsin.

For the best Shearers.

The committee will take into consideration time, workmanship, and the condition in which the fleece comes off the sheep for doing up.—Each competitor to shear at least five sheep.

All competitors for premiums on sheep will be required to become members of the Society and make their entries by the evening of Tuesday, May 29th, 1854. Each competitor must give as full a description of the pedigree—whether Spanish, French Merino, or Saxony, &c., or if a cross, with what blood crossed, &c., with the manner of keeping, the quantity of hay and grain fed per hundred sheep during the winter, with an estimate of the cost of keeping one hundred sheep per year, what his general average of wool per head is; also the average per cent. of losses on one hundred sheep per annum; also, the number of lambs raised to the number of ewes kept.

All competitors for premiums as Shearers, will be required to become members of this Society, and to signify to the Secretary their intention to compete, by the evening of Tuesday, May 30th 1854.

Persons intending to compete for any premiums at this Festival are requested to inform the Secretary as soon as practicable, in order that suitable arrangements may be made for their accommodation.

Good pasturage and shelter will be provided by the executive committee.

In establishing this Annual Festival, the Executive committee trust that their efforts, for the improvement of the condition of Sheep-Husbandary, will be duly seconded by the farmers of Wisconsin, and that there will be a full representation of all breeds of sheep, and their various grades.

Persons desiring further information with regard to this Festival, and communicate, either personally or by letter with the Secretary at Madison.

ALBERT C. INGHAM,
Secretary.

State Ag. Rooms, Madison, 1854.

LIBERAL.—The late Legislature passed an act providing for the publication of the general laws in all the newspapers of the State, and fixing the compensation thereof at $30! The general acts number 99, and contain over 500 folios. Nearly every paper, to their credit be it said, declined the munificent offer.

That was an exceedingly economical Legislature;—and its ideas of economy were curious.—It squandered $270,000 for the people, and then economized on a little job of five hundred folios.—*Ozaukee Times, Dem.*

From the Journal of Commerce.

THE APPROACHING ANNIVERSARIES.—Most of the religious and benevolent institutions centering in this city, have made up their accounts for the fiscal year just expired, and are perfecting their arrangements for the usual anniversary exercises.

Their operations during the past year have been larger than ever before. Their receipts compared with those of the previous year, have been as follows:—

	Year 1852-3.	Year 1853-4.
Am Tract Society	$391,627	$414,159
" " Bible Society	346,542	355,000
Am Board of Foreign Missions	186,682	189,266
Am Home Mission Society	171,734	191,209
Am Foreign and Christian Union	69,703	75,000
Am and For'n Bible Society	44,811	44,000
N. Y. Colonization Society	18,062	27,148
Amer. Seamen's Friend Society	24,264	26,500
Female Guardian Society	12,772	22,000
Society for Ameliorating the Condition of the Jews	13,259	14,000
	$1,272,356	$1,339,282
Increase		$126,916

If to the above were added the receipts of the Baptist Home Missionary Society, the Central American Education, and one or two institutions of less importance, from which we have not heard,—and if allowance were also made for the deficient four months of the American Board of Missions, the total contributions during the past year, would exceed a million and a half of dollars.

The anniversary exercises of these Societies take place in this city between the 9th and 12th of May.

*Including receipts from sales of publications—The sales of the Tract Society amounted to $259,197.

†For 8 months ending March 31.

‡The statement of receipts for 1852-3 includes several legacies.

§There has been raised during the last year exclusive of the sum mentioned $50 000 for the erection of the new Bible House in Nassau street into which the Society will move about the 1st of May.

OUR STATE exchanges are raking down the late Legislature pretty freely for all sorts of bad capers, such as corruption, extravagance, &c., &c. The story is a long one, and we shall not attempt to tell it; but is in the main true, especially the extravagance part, for they salted the "dear people" $269,309,75!

They have as yet found but one defender, the editor of the Shullsburg *Pick & Gad*, who is likely to be alone in his glory.—*Ozaukee Times, Dem.*

☞ Not many years ago says the Washington *Union*, the whole commercial marine of the United States was dependent upon Russia for sail cloth. About twenty-five years since, the manufacture of sail cloth was commenced in Paterson, New Jersey, and such has been the increase of this branch of industry that the Russian article has been nearly driven from the market. The whole imports of sail cloth, of all descriptions, from Russia, would not furnish the single town of Gloucester with its canvas.—More than four thousand bolts of duck are annually required at Gloucester, while the whole imports into Boston, which has nearly the entire Russian trade, during the year 1853, were but about 8,000 bolts, or $38,000 worth.

LARGE SALE OF PROPERTY AT NEWBURG.—S. H. Vandercook, Esq. recently purchased the large property interest of Sheriff Silverman in the village of Newburg.—This purchase includes the valuable mill property and some of the finest land in Washington county, situated on both sides of the village plot. A large amount of property is changing hands throughout this section of country. Business in this time is unusually brisk.—*Ozaukee Times.*

NEW POST OFFICE.—A Post Office has just been established in the town of Ottawa, to be called *Ottawa*, and William Miller, a worthy citizen, appointed Postmaster.—*Waukesha Chronotype.*

DEATH FROM CHLOROFORM.—We learn from Dr. Douglass that a despatch was received here this forenoon, stating that a woman, who left this city on the cars last evening, died at Geneseo Waukesha Co., this morning, from the effects of a dose of chloroform, which she took at Geneseo, where her parents reside. Her name was Almira Remington.—*Free Democrat.*

POLICE COURT, April 28.

Harvey Birchard was brought in on a warrant in the hands of Sheriff Page, for assault and battery upon SHERMAN M. BOOTH on the 27th. The defendant, when the complaint was read to him, admitted it to be true, that he had committed a breach of the peace, and was willing to pay for it. A witness, Chas. E. Jenkins, was then sworn, as to the nature of the assault and battery—and testified in substance, that he heard a noise in the hall of Birchard's Block, and on looking out saw Mr Birchard have hold of a man's hair, and they both on the floor; that he spoke sharply to defendant and he stopped; the other got up, and he saw it was Mr. Booth; did'nt see the beginning; that Mr. Booth was scratched in the face, and complained that his shoulder was badly hurt.

The Court fined the defendant fifty dollars and costs; a check on Marshal and Illsley was written and signed for the amount, and the defendant left, expressing great satisfaction that the lawyer (Gen. Paine) had not had a chance to abuse him.

Two persons were fined for violating the wood ordinance, and two more warrants have been issued against others, for the same offence.

In the afternoon the two men John R. Lindsay and David Perry charged with larceny from the person of John Laylor early in March, were brought down from jail, having claimed an examination. The District Attorney stated the prosecution was not ready, that the complaining witness resided in Dodge County and that he could not be got here before the middle of next week and that he had understood, that an examination would not be pressed by defendant's counsel. The defendants stated they were anxious for an examination, stating they were in the jail innocently and that they could prove it and that his house had been called a house of disrepute in the papers, &c.; they were both required to give bail in the sum of $350, each for their appearance on Thursday next at 10 A. M. In the meantime the case will be brought before the grand jury. They were both taken back to jail.

A YEAR WITH THE TURKS, or Sketches of Travel in the European and Asiatic Dominions of the Sultan; by WARRINGTON W. SMYTH, M. A.; REDFIELD, 110 and 112 NASSAU ST. N. Y. 1854

MESSRS. ARNOLD & WILSON have put us under obligations for this very timely republication by REDFIELD, of a late English work. The traveller, Mr. Smyth, has given the reading public a very interesting account of his journey through Turkey. His accounts are peculiarly interesting just at the present time, when the hosts of Europe are gathering for close conflict along the Danube and in the Turkish provinces. The accounts and sketches of the habits and character of the people are drawn with a master hand, and the book places the reader among them at once, and enables him to understand the feelings of the Turks in the present conflict. The book has been published since the battle of Sinope, so that its statements are fresh and new, belonging to the present, and not to the past. A Map, so colored as to show the different races under the Ottoman Empire, prefaces the work.

HANDSOME VESSEL—DESPATCH.—The fine schooner *D. O. Dickinson*, which was launched from Capt. JONES' shipyard only a few days since, is now lying alongside Newhall's Warehouse, taking in a cargo of Barley for Buffalo, at the same time that the riggers are busy bending her sails, and the carpenters and painters are at work on her hull. The *Dickinson* is a beauty and no mistake, and if she sails as fast and carries as well as her looks promise, will be a vessel worth owning. She will be rigged, loaded and ready for sea by to-night, or to-morrow morning, and takes 15,000 bushels Barley at one shilling freight.

☞ The Steamer *Traveller*, Captain Cooper, arrived from Chicago yesterday afternoon at ¼ past 5 o'clock, with nearly 700 passengers and freight. She left Chicago at 9 A. M.

☞ The Schooner *Twin Brothers*, is to be got off as soon as the weather permits. The job has been let to get her off, for $200.

FIRE.—The alarm of fire between 1 and 2 o'clock A. M. yesterday was caused by the burning of a small frame building in the second Ward, on the Lisbon Plank Road, a mile or two from Spring St. Bridge.

THE STREET SPRINKLER.—This useful machine will commence work on East Water Street, next Monday, and will be kept going for a month, by way of experiment. Should the subscriptions justify it, the proprietor will continue his operations thro' the summer. We hope that the Sprinkler will be maintained, at public or private expense, during the season. It is as necessary a luxury as ice.

FAT CATTLE.—We saw yesterday a pair of *fat cattle*, which had been purchased by Mr. Layton, the smallest of which girted 9 feet, and the two weighed upwards of 4,500 pounds. They were decked with ribbons and driven up and down East Water Street for exhibition.

REAL ESTATE SALE.—By OALES WALL, agent, the east half of quarter block S, in the First Ward, for $1,300.

MASON STREET. The *Wisconsin* again thrones the Aldermen of the First Ward in regard to the bad condition of Mason Street. There is certainly no excuse for leaving it so long in its present ragged, unsightly and unsafe condition. Messrs. HADLEY, MALLORY and SHUTTE, the city experts each one of you to do his duty in the premises.

COLLISION AND SMASH UP.—Last night a freight train on the Michigan Central R. R. ran into another freight train at Lake Station, smashing up two or three cars slightly injured a number of French emigrants. It appears that the freight train was at the station and the freight train following ran into the back end of the former. The emigrant car was shivered into splinters, throwing the emigrants clear of the track and thereby saving the lives of all of them, though a few are injured.—*Chicago Democrat 25th.*

"WHO SHALL DECIDE WHEN DOCTORS DISAGREE?"—The *Sentinel* shows conclusively that the late Chief Justice Marshall and the *locum tenens* of the *Argus* disagree upon a law point. Under one of the Chief Justice's decisions the Governor's Private Secretary is a civil office; and the Governor in appointing Senator Hunter has been guilty of violating the Constitution.—*Mr. Tenens* holds to the contrary; Marshall is dead; the Governor is apparently oblivious of the existence of such an instrument as the constitution except when it affords a pretext for carrying out his favorite schemes; and the more modern authority is received as the "democratic" doctrine in this State.—*Madison Journal.*

THE CITY OF GLASGOW.—The anxiety about the fate of this steamer is becoming very great, as it is now fifty-four days since she sailed from Liverpool for Philadelphia, and no news has yet been heard of her. News from Fayal to April 3d, makes no mention of her, though it was hoped she would be reported from that quarter before. The City of Glasgow was a staunch vessel, and hopes of her safety are not yet abandoned.

GEN. GARIBALDI'S SHIP.—The Newcastle (Eng) Chronicle notices the arrival of Gen. Garibaldi the Italian patriot, in the river Tyne, in charge of a handsome full-rigged clipper-ship named the Commonwealth, which it says, "belongs to American owners." The Commonwealth is a Baltimore ship, and sailed from this port in command of Gen. Garibaldi, who, it was understood, purchased her here on his own account in December last. The Chronicle adds:

"The admirers of the Italian republican intend to pay some public marks of respect to his illustrious representative of their opinions; but with the modesty peculiar to his disposition Garibaldi preferred to appear in the Tyne simply as the master of an American merchant vessel. The Commonwealth will leave the Tyne for Genoa, Garibaldi's birth-place, and the scene of some of his exploits during the revolution. He will appear there as an American citizen, and under the protection of the American flag."

THE CROPS IN OHIO.—The Cleveland Leader says, in relation to the crops, and the prospect of a full harvest in that State:

"Many of our exchanges are boasting of the promising appearance of our forth-coming wheat crop. A somewhat extensive personal observation in this State and Indiana, does not warrant us in agreeing with them. We saw a great many poor looking fields, and from all the information to be had, we are of the opinion that the prospect is not above middling at best. But other sections may promise better. One thing is certain, that very little wheat for market is held in the hands of Ohio farmers, and still less among wheat merchants."

GREAT GALE AT CHICAGO!

Vessels Wrecked—Four Lives Lost.

Private Dispatch to the Sentinel.

CHICAGO, April 27th, 8 P. M.

The most violent gale ever experienced is at present raging here. About 12 o'clock the Schr. *Rocky Mountain*, loaded with lumber, was driven on shore near the American Car Works, and immediately went to peices—all hands saved. The *Live Richmond* was driven on the breakwater, her masts carried away, and is fast going to peices—crew saved.

The Schr, *Merchant* came to anchor off the Breakwater and capsized. Three of her crew were taken off by Life Boats. Four of them were drowned.

The schr. *Maine* lies a short distance from the breakwater. Her foremast is cut away.

The schr. *Arrow* was driven on Breakwater about dark. The crew leaped off when she struck.

The *Mary* put out into the lake and is now standing off. The schooners *Lizzie Throop*, and *P. Hayden*, are within a few rods of the breakwater; it is feared they will go ashore before morning.

The *Pocahatan*, from the lower lakes, came in safely about noon.

The balance of the Lake Erie fleet are supposed to be on this lake and are expected here before morning. Serious disasters are apprehended. The gale is apparently increasing in violence.—More particulars in the morning.

SECOND DESPATCH.

Chicago, April 28, 6 P. M.

In addition to last evening's despatch, we have to report the schooners *P. Hayden* and the *Lizzie Throop* ashore. The *Olive Richmond*, *Rocky Mountain*, and *Merchant* total wrecks. The *Arrow*, and *Maine* ashore. Don't know whether total wrecks or not yet.

The schooner *Mary* lay off and came in safe this morning.

The schooner *Whirlwind* lost two men getting off the shore at Manistee.

Accounts from Lower Lakes say the gale was not so severe there. About 25 miles this side of Erie the propeller *Falcon* came across the three-masted schooner *North Star* bound up, loaded with coal; she had her fore-yard carried away.

Four sailors who were in the rigging of the brig *Oleander*, when the gale struck her, were thrown into the river with the falling rigging and were drowned. No particulars nor names given. H.

EVENING DISPATCH.

Reported for the Sentinel.

Mexican Mustang Liniment.

DURHAMVILLE, N. Y., December 12, 1851.

Messrs. BRAGG & Co.:—

GENTS:—Although a stranger to you, I am not to your most valuable medicine called Mexican Mustang Liniment. One year ago, I became afflicted with an enlargement of my knee joint; also a weakness which disabled me almost from using my limbs at all. I called on a physician in Syracuse—(the name could be given)—he examined it and told me to bathe it with warm water, and rub it two or three times a day, and it might go off without much trouble; if not, to call again. Some weeks passed, and it grew no better. I then called on another doctor at Oneida Depot; he told me nothing would help it but blistering and lancing. I could not consent to this, and called on Drs. C. & T.; they gave me a mixture of indigo colomel, &c. I tried this and it did no good. I then used five or six dollars worth of a liniment that had been recommended to me. All of those medicines I have been using for the last ten months, through, and according to direction, without the least possible good resulting from it. I then obtained some of your Mexican Mustang Liniment; the first bottle, a 25 cent size, I perceived straightened my joint. I am now using my fourth bottle, and my knee is nearly well. Yours, in haste,
HIRAM FIELD.

SENTINELLE, N. C., November 23, 1853.

MESSRS. A. G. BRAGG & Co.: GENTLEMEN—Having been afflicted wi h the rheumatic pains for the last four years, and happening to meet with your advertisement in the papers, I came to the determination to give it a trial, as I had tried nearly every popular remedy without effect. I am happy to say by you, that the Mexican Mustang Liniment has entirely cured me. I applied three fifty-cent bottles on my limbs, and am now as free from pain as I ever was in my life. My case was so strange to the people in this section, my friends are perfectly astonished at the effects of the Liniment. You are at liberty to make this public if you desire to do so.

With much respect,
SAMUEL A. DAVIS.

Lumbago, Salt Rheum, Tetter, Eruptions, Ringworms and Piles, are cured in a very short time by applying the Mustang Liniment according to directions given with the bottles.

BURNS and Caked Breasts, Sore Nipples, Piles, Ulcerations, and Corns on the feet, are easily cured by a thorough application of the Mustang Liniment for those complaints.

☞ The following is but a small synopsis of what the Mustang Liniment will cure:

One bottle, 50 cent size, is warranted to cure the Scald Head.

One to two 50 cent bottles will cure the Salt Rheum,

One 25 cent bottle will cure the Caked Breast.

One small bottle is a certain cure for Sore Nipples.

One to two dollar bottles is warranted to cure the worst case of Rheumatism in any form, and one 50 cent bottle will cure any case of recent standing.

One to two small bottles will cure the Neuralgia.

One bottle, 50 cent size, will cure the severest Burn or Scald.

One dollar bottle will cure the Spinal Disease.

One small bottle will cure the Piles in any stage of the disease.

One to two 50 cent bottles will cure the Scrofula, in any case.

One small bottle will cure Chapped Hands.

Three to four bottles, 50 cent size, used in connection with the recipe for "Old Sores," accompanying each bottle, is warranted to cure the severest cases of Old Sores, commonly called Fever Sores on the lower shins, that have resisted all the skill of the faculty.

One dollar bottle will cure the Ring Bone, Splint or Scratches in horses.

One dollar bottle will effect a permanent cure of the Spavin, Sweeny or Poll Evil.

One 50 cent to a dollar bottle will cure all cases of Galls, Chafes, Fresh Cuts and Lameness.

A beneficial effect is always experienced from the first application and a perfect cure is warranted when used according to directions.

CURE OF SALT RHEUM

OF TEN YEARS STANDING.

A lady residing near Lyon, Ontario Co., Mo., had the Salt Rheum on her head during the last 10 years, causing pain and torment. Six weeks ago it assumed a very dangerous character, spreading all over her head and face in the most frightful manner, so that she could not see. Her life was despaired of. She tried every remedy her doctor could prescribe but all to no effect. One of her neighbors recommended the Mustang Liniment as the last resort she should try. She followed it and told me to bathe it with warm water, and rub it two or three times a day, and it might go off without much trouble; if not, to call again. Some weeks passed, and it grew no better. I then called on another doctor at Oneida Depot; he told me nothing would help it but blistering and lancing. I could not consent to this, and called on Drs. MILWAUKEE MUTUAL FIRE INSURANCE COMPANY.

Office 185 East Water Street.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire.

The assets are secured are scarcely beyond the reach of discontinuance, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of sale. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-half as much as in Stock Companies, saving nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 3500 Policies, and made but three assessments at a cost to the property insured not exceeding two mills on the dollar. Its business is principally confined to this State.

THE WAY TO THE ALTAR.—MATRIMONY MADE EASY; OR, HOW TO WIN A LOVER.

"Love rules the court, the camp, the grove,
For love is Heaven, and Heaven is love."
So sang the bard; yet thousands plan
For love—of life the light divine—
Who did never the secret charm,
The hearts of those they love to warm.
Might live, might die, it bliss supreme,
Possessing all of which they dream.
The road to Wedlock would you know,
Delay not, but to ROUNDOUT go.
There lies and from his gloomy wings
A shadow falls that ne'er clings!
Then seize the moments as they pass,
Ere fall the last sands through the glass;
At least do your best to win your lass,
While all the future is unknown.
A happy marriage is one aim!
May now secure by ROUNDOUT'S aid.

Professor ROUNDOUT, of New York, formerly of Sweden, where he has been the means of bringing about thousands of happy marriages, will send to any address, on receipt of one dollar, post paid, public or private, a medium whereby he can win the affections of as many of the opposite sex as they may desire. The process is so simple, but so enchanting, that all may be married in a few months. Address Professor ROUNDOUT, New York City, post paid.

N. B.—This is no agents, and any person advertising themselves as such are ☞ swindlers, and I will prosecute them as the law directs.

N. B.—This is no humbug, but one of the greatest sciences the world ever produced, which thousands of ladies and gentlemen in the United States and Canada can testify to. No one will ever regret the price paid for such an invaluable secret. All letters properly sealed and plainly directed may be sent at the Professor's risk. mr31-3mowly McD

THE BUFFALO EAGLE IRON WORKS CO.

Propose to pay Particular attention to

Architectural Iron Work.

WE are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

Patent Fire Proof Rolling Shutters.

These Shutters are the same that are now so generally used in New York, and may be put in any Window, Small or Large, and if arranged before the putting on of Architrave. They make the only perfect Fire Proof Shutters, and do not appear to the eye when closed up.

When desired we will furnish the Plan of the Store Fronts, (with or without the Patent Shutters) with estimate for the Cost of the work finished ready for delivery. To our Western friends we think this arrangement will be desirable, for then the Front is to be, and what it is to cost.

When the Patent Shutters are used we will furnish a man to superintend the erection of the Iron Front and the setting of the Shutter.

J. E. FOLLETT, Sa retary.
